

Vermont Panurgy Knows Healthcare IT

We recognize the challenge for any size medical practice is to ensure their information technology is up and running when it's needed. Peak performance is imperative, and we are dedicated to making sure our clients' systems are optimized and we advise along the way to enhance reliability and productivity. We service all size businesses and welcome small businesses, unlike other IT companies.

Dedicated Technicians

Our experienced technicians develop an understanding of your specific practice IT systems and you will have a consistent point of contact with our technical team.

Small Business Focused

We excel in supporting the unique requirements of small businesses in the healthcare field. We scale our offerings to the needs of your business to ensure your systems are reliable, responsive, and accessible.

Recurring, Fixed-fee Service Plans

Our service plans are uniquely catered to each business, which means predictable fees and transparency in maintaining your IT systems. Get monthly network updates, quick response times and unlimited support calls, at a price made for you!

On-site and Remote Service

While remote support is often the most efficient way to resolve issues, we will not hesitate to send our technicians on-site when necessary, to resolve the issue as effectively as possible.

"Vermont Panurgy has supported us for almost two decades. We are an oral surgery practice so access to patient information and security are critical. Vermont Panurgy has guided us into the future and are well informed of current and future technologies.

We highly recommend them!"

*Patti Melvin
New England Oral Surgery*

What Sets Apart?

For over 35 years, Vermont Panurgy has been offering IT solutions to businesses and agencies of all sizes in Vermont and Northern New England.

Vermont Panurgy is a leading provider of comprehensive, business-focused IT solutions. We take care of the technology so you can focus on what matters most—delivering top healthcare services to your patients.

"Vermont Panurgy has supported our small medical office for many years, and they've consistently been a reliable partner for our network & system support. They have invested significant time and energy to understand our business needs, and as a result of this relationship and knowledge, the solutions they present to us are appropriately scaled for our operations, our size, and our budget. When technical issues arise, they help us to resolve them promptly, professionally, and always with a pleasant interaction."

We value Vermont Panurgy and have no hesitation in recommending them to other small businesses."

Richmond Family Medicine*

How Vermont Panurgy can help your healthcare practice:

- **We work with your business and your existing systems** (i.e., current hardware and licensing)
- We work **remote or on-site** ... no different pricing
- **We're local**, you'll have the same people working with you
- Valuable experience with **network firewalls and Wi-Fi installations** specifically in healthcare practices
- **No complex and costly long-term service contracts**
- **No "one size fits all" service agreements.** We design each service agreement to **meet your specific business needs.**
- We are a **Certified Partner** with Microsoft, Hewlett Packard, Dell, SonicWall, Barracuda and work with many other leading industry manufacturers and software developers.
